A Venture in Aerostation

The Love of Thomas Bright for Maude Wright and Her Faith in Him.

PROVED HE COULD "DO WONDERS"

By Means of an Airship that Annihilated Space and Papa's Opposition.

BY ARTHUR W. BARKER.

lish a difficult task.

One afternoon, however, while abused for the outlet of air, was opened sorbed in a problem which promised and Charley whispered, "All right, success I was interrupted by a friend, Tom?" who entered my workshop unan-

to be all that my imagination pictures plainly interpreted the nature of his feelings.

(Copyright, 1902, by Daily Story Pub. Co.) start me on my journey. It would be HAD come to the conclusion that single blessedness is not a sine-cure; and, after meeting my ideal, resolved to marry and settle down. But I encountered an obstacle which I breech of the cannon I felt a sudden had to remove before I could gain the jar and heard a muffled road, which object of my affections. So I went to quickly changed into a piercing shriek. work with a Dewey determination to This sound annoyed me until I felt a win, as it was necessary for me to do series of jolts, then all became still as something extraordinary to accom- death. Presently I heard a low murmur and then a little valve, which I

I answered in the affirmative and a moment later Cherley was helping me out of my close quarters. It was posi-"An airship?" he remarked face- out of my close quarters. It was posi-tiously, as he inspected the cigar- tively amusing for me to see the shaped model which I had almost com- astonished spectators as they stood in open-mouthed wonder. Major Wright, "In a correct sense it is not exactly however, was the first to recover; he what one woull call an airship," I re- rushed forward, grasped my hand and turned shortly. "Although if it proves proceeded to wring it in a manner that

"Brave boy, Tom," said the old fel-Charles Fields and myself were warm low huskily, "you accepted my ulti-

Art. V. Major Wright hereby agrees
to financially indemnify Thomas Bright

"How the dickens you expect to operate the thing is beyond my com-"It looks more like a shell for one of the Rodman guns than anything else."

"You're right in your comparison this and I suppose you'll consider me a June, 1899. lunatic when I tell you that I intend to ride over the six-mile range faster than mortal has ever rode the same distance If gunpowder can do it."

The next morning we had the machine after weighing the shell Charley made is calculations as to the amount of powder necessary to carry it a certain distance, Inside the shell we placed a weight equal to my own. He turned it ver to the gunners with instructions what to do, and, jumping into our wagon, started across the "range" for

the purpose of some observations. Charley wished to make. On our arrival we lost no time in giv ing the signal to fire, and in an instant we saw the white puff from the Rodwar. The shell fell a little short and risochetted for a hunored yards or more before it was speni. In feverish haste we ran to investigate, and after a careful examination found everything intact. Euccess had crowned out first

experiment. That effectually dispelled Charley's fears and he made no further objections, but to show his appreciation of my pluck and genius agreed to invite my pluck and genius agreed to invite the shell when ejected from the rifle critically, as he looked at everything Soon after the marriage the young the Major and several officers to wit- barrel of the cannon. "SETTING UP" HOUSEKEEPING.

A Family Council Of Two VOUSEKEEPING and happiness ought to be synonomous terms to every young married couple. oung man is justified in taking a ife unless he can give her a good suport. It is not to be expected that a ung man beginning life can offer his ride a home as elegant as she has been ccustomed to in her father's house. But every young man should provide for his wife a home in which she may enby the comforts of life. No man has a right to deprive a girl of a home with the comfort and protection the word imlies, by making her his wife. The new ome need not be large nor luxurious.

Reeping.

The gain to themselves in develop-ment of character and the growth in sturdy common-sense virtues, called nto exercise through the responsibility of making a home, will far outweigh any possible loss from the decision not to board or "live on the old folks." Don't take your young wife to a boarding-house. I should like to impress the value of a separate home to every man contemplating marriage. Many, many are the marriages that are rulned by way of the boarding-house. The young wife having no pleasant round of house hold duties to engage the day often fritters away her time in idle visiting Wright's daughter Mande, who promised to become my wife whenever I issuation we formulated a treaty of could gain the Major's consent. But he phopiness. For when I approached him on the subject he utterly refused to countenance anything of the kind.

Rents are low packeting to the little scenarior in the window shints of the wind scenarior in a step of the wind scenarior i and gossiping, or else mopes away her

It may be only a tiny flat with the simplest and fewest house furnishings. With taste and economy the two young people can make it a little paradise.

ness. White enamelled from bedsteads are always suitable for a small apartment. Let the coverings be of snowy whiteness. The "counterpanes" of pink and blue and Turkey red, so often seen, invariably look cheap and in bad taste and always suggest saving the washing. The woman's diressing table and the man's chiffonier are good indicators of the habits of the mistress of the home. They should be orderly in arrangement, convenient in appointments designed for the husband and dainty by

ess arrays herself in her prettiest gomand a few moments before the hournamed on her cards she takes her stand with her husband just inside the parlor door. There she receives the guests as they arrive. If she chooses to do to she may ask her bridesmaids to assist her in receiving. One of these friends or a young sister relative of herself er her husband should preside over the refreshments in the dining-room.

As the guests enter the parlor the host and hostess greet each cordially and after a few words of conversation the guests pass on into the dining-room. Generally some member of the family helps in the reception by moving in and out among the guests and conducting them to the refreshment table.

Ices, salads, &c., are not served at an informal "at home." Tea and choeolate, with delicate waters, biscuits and cakes, are quite sufficient for the occasion. The guests partake of these according to their individual tastes. Nobody must forget to felicitate the young wife and husband upon their new happiness. If the friends are very close ones an inspection of the pretty new home is allowed them.

After the wedding the bride of course receive numerous calls. She must carefully return each one of these, leaving at the homes of her married friends one card of her own and two of her husband's. One of the latter is of course intended for her friend's husband.

How to give pretty little dinners in esimple way will be told in a later article. any home. But if there is no diningroom the young people (who are popularly supposed to live mostly on love)
can eat their meals happily and merrily
on a neatty laid table in the kitchen,
which should be perfectly kept.

Let the new home have a dining-room,
though, if any way it is possible. The
young wife will wish to entertain the
friends who showed her courtesies and
extended hospitalities before and at her
wedding. She will wish to give a little
dinner occasionally to her husband's
friends and family. She will wish for a
dining-room in which to serve light refreshments when she has her first
"afternoon at home."
This first "at home." affords the bride
a pretty way of acknowledging bridal
courtesies. She usually sends out invitations a week or ten days in advance

seventeenth, from four un seven o'clock, 172 East Sixteenth street,
